

# **HAYWARD POLICE DEPARTMENT**

## **OPERATION "Safe Porch"**

---

### **PURPOSE:**

The city of Hayward has seen a significant increase in reported thefts of delivered packages from front porches. This crime typically spikes during the holiday season as more online orders and subsequent deliveries of those orders occur. This provides numerous opportunities for thieves to steal the delivered packages from front porches.

To combat this significant problem, the Hayward Police Department Special Duty Unit is conducting an operation seeking to combat and reduce the amount of package thefts during this holiday season and arrest/prosecute those individuals committing this criminal activity.

### **OBJECTIVES:**

The operation will emphasize a pro-active approach in the suppression of this criminal activity with the use of "bait" packages affixed with GPS tracking devices, Surveillance and Covert Operations, Probation/Parole Searches and potentially Search Warrants.

The Hayward Police Department Criminal Investigations Bureau, units from the Special Investigations Bureau, along with Crime Analysis will also be assisting periodically in the enforcement and investigative responsibilities.

The operation will begin on or about the week of November 12th, 2018, concluding on or about the week of December 17, 2018. The operation will primarily take place Mondays thru Thursdays from 1000 hours to 2000 hours. There will be some expected flexibility with the days and hours based on activity.

***Safety for this operation is paramount!***

### **INVESTIGATIONS:**

All investigations conducted as a result of the efforts of this operation will be primarily conducted by SDU personnel. Any related follow-up investigations, evidence collection, and search warrants that are needed to seek prosecution will also be conducted by SDU personnel, and at times with assistance from CIB and SIB Detectives.

# **HAYWARD POLICE DEPARTMENT**

## **OPERATION "Safe Porch"**

---

### **COMMUNICATIONS:**

Communication will primarily be conducted via the SDU Digital radios. SDU will communicate with dispatch via radio to update them with any enforcement and request any assistance if needed.

HPD Channel 1 for all vehicle and suspect stops. All emergency traffic will be conducted on Channel 1.

HPD Channel 3 for warrant checks and miscellaneous radio traffic.

### **EQUIPMENT:**

SDU personnel will primarily be wearing their normal uniforms during the operation unless engaging in covert operation. At all times appropriate attire that clearly identifies them as police officers will be worn if they are to engage in any type of arrest, detention, or enforcement action.

The use of 3SI brand GPS tracking devices will be utilized during this operation. There are a total of (2) tracking devices assigned to this operation. These devices provide real time location information and are immediately activated upon movement. SDU personnel will track on monitor the devices using their department issued cellular phones.

The assigned SDU vehicles (Tahoe, Crown Vic, Charger) will be utilized along with an assigned undercover vehicle for surveillance and covert operations.

SGT. Maloney meet Arya from our Loss Prevention team that covers our buildings in your area.

Arya can you get the SGT. set with 10 Amazon branded boxes, 1 roll of Amazon branded tape, and lithium ion stickers? The boxes should be slightly larger than shoe boxes unless he advises otherwise. Once we have them ready can you advise him on the location for pickup? Looks like OAK 7 is the closest.

So far there has been no bites on our decoy package. So far we have placed it on porches in the E beat, A beat and C beat for several hours at each. We have been targeting high traffic areas, good visibility of porches and prior theft neighborhoods. We will be focusing primarily in the Cannery Park neighborhood this week as there have been several package theft complaints there. I'll let you know how it goes.

Thanks!
